

IBM MQ

What users are saying on G2.

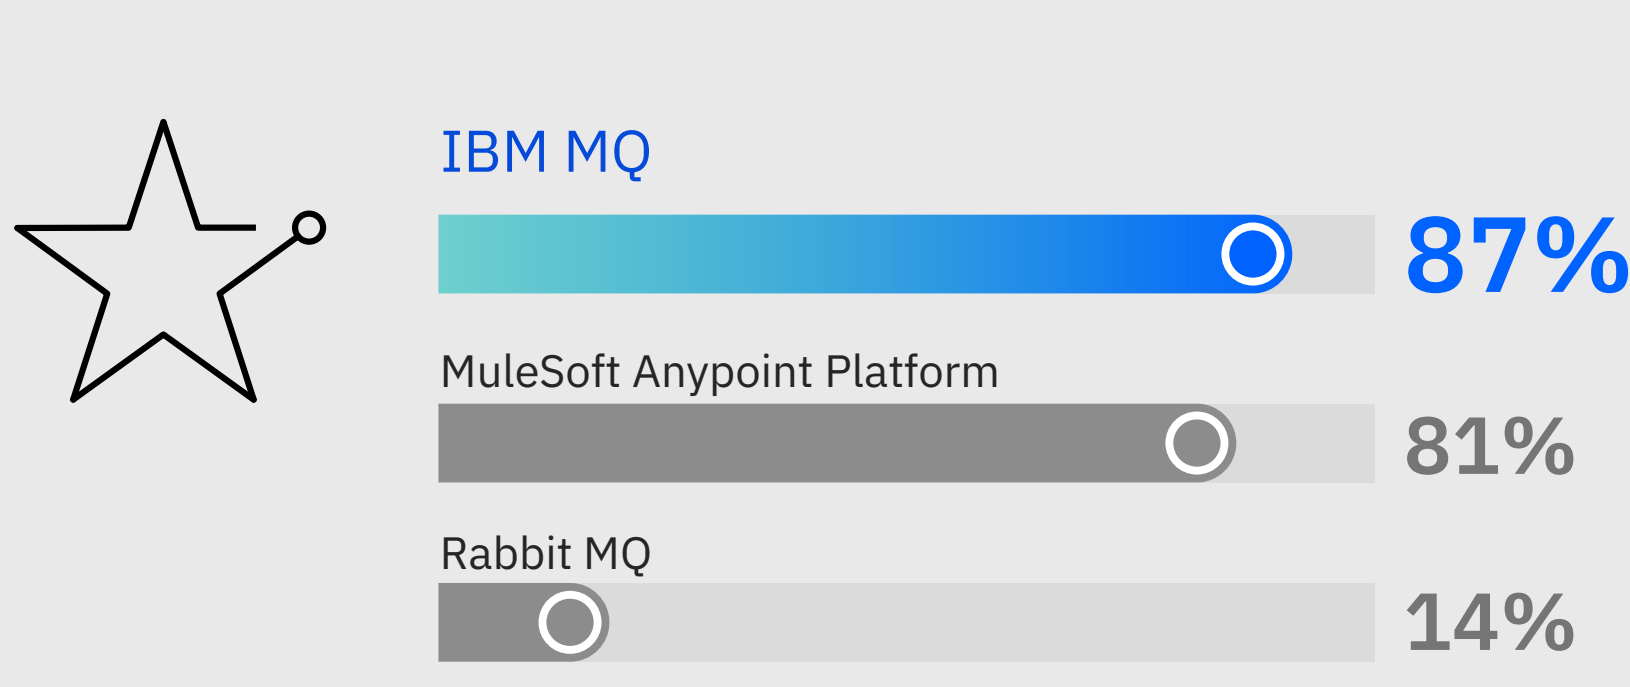

Based on G2's 2019 Spring Reports

Review Star Breakdown

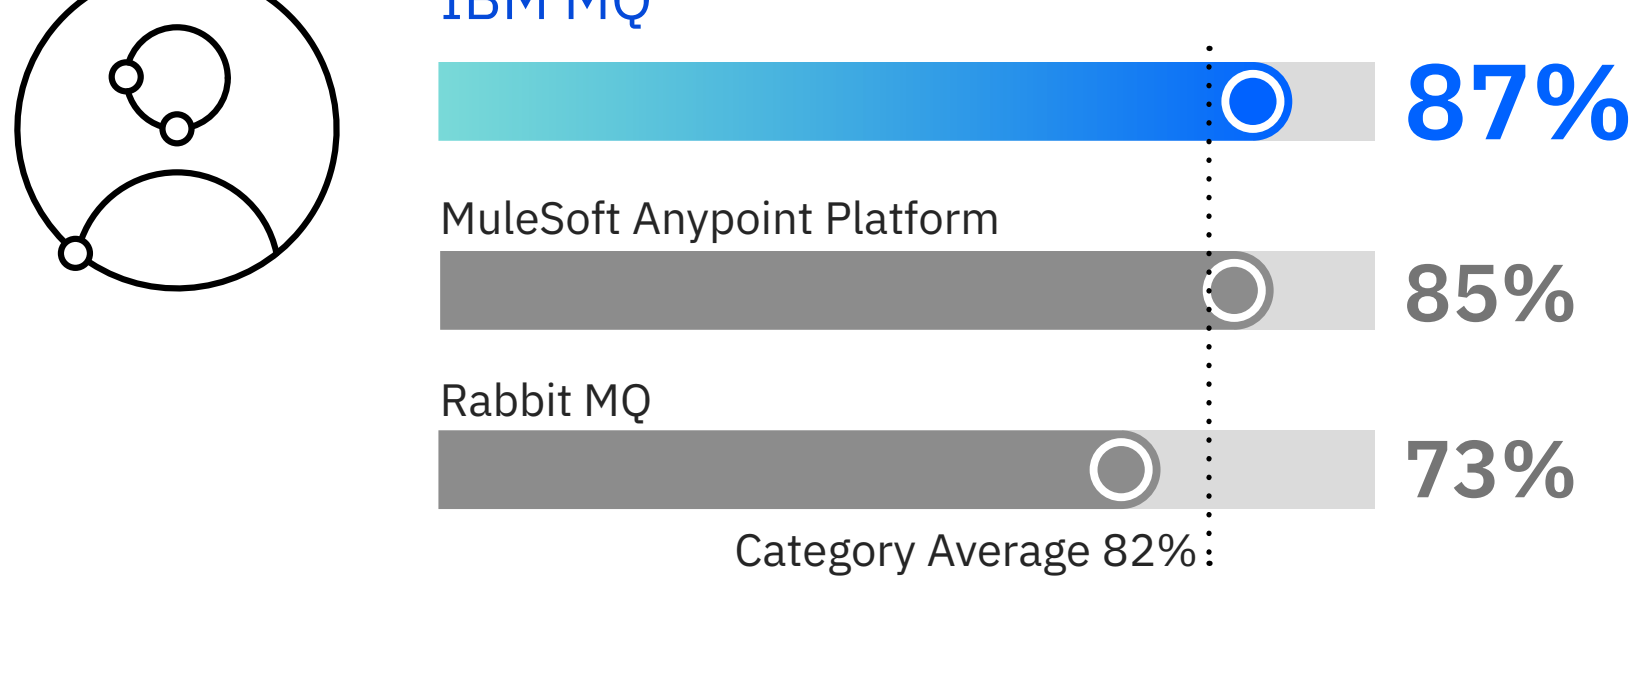

G2 Score

The flexibility, feature set, and widespread use of the product in the industry has allowed it to be a de facto standard in this technology.

- G2 Reviewer, 5 stars

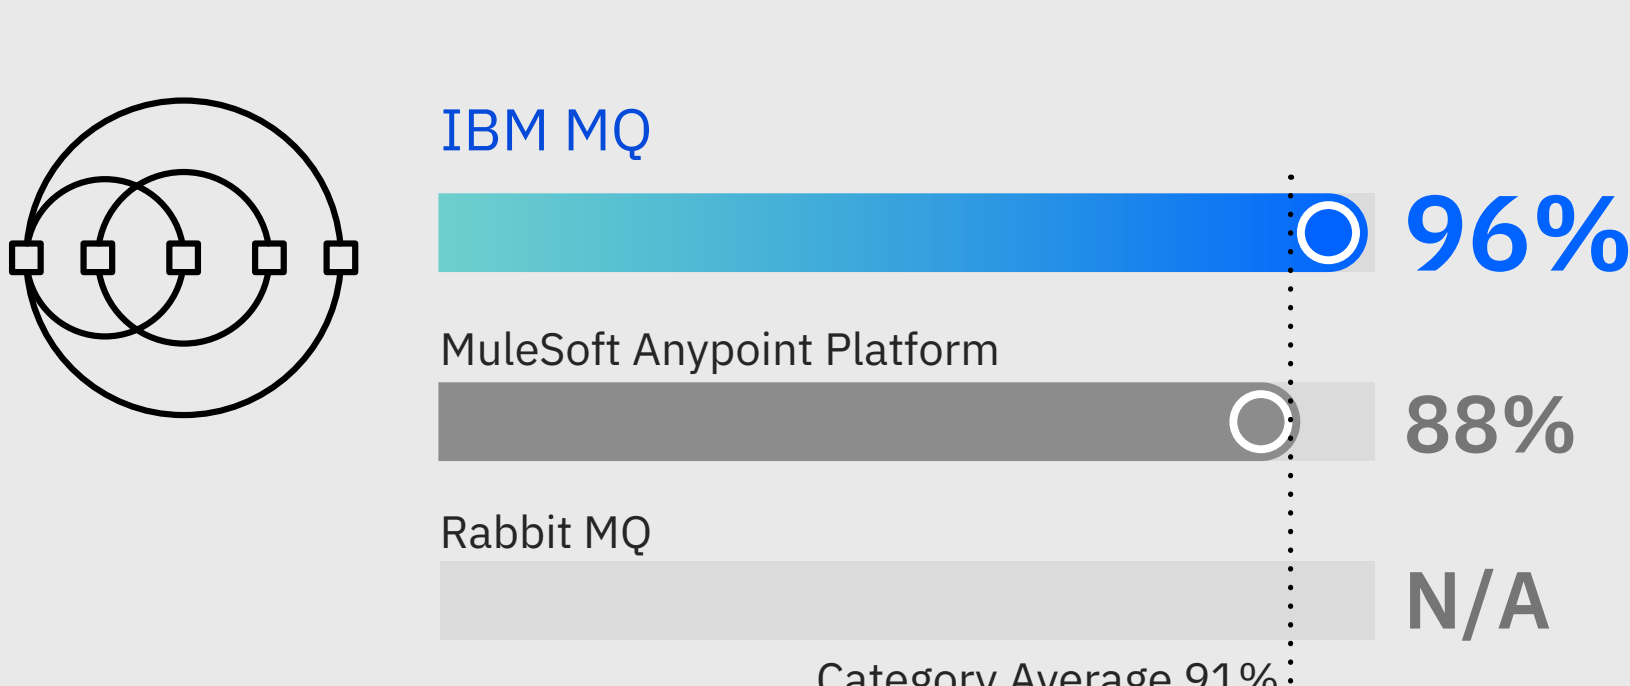

Quality of Support

MQ's robust and solid presence for over 25 years has shown over the years. I am fortunate to have been involved with using this product for the last 12 years. We have always had support for everything we need from troubleshooting to implementation and usage.

- G2 Reviewer, 4 Stars

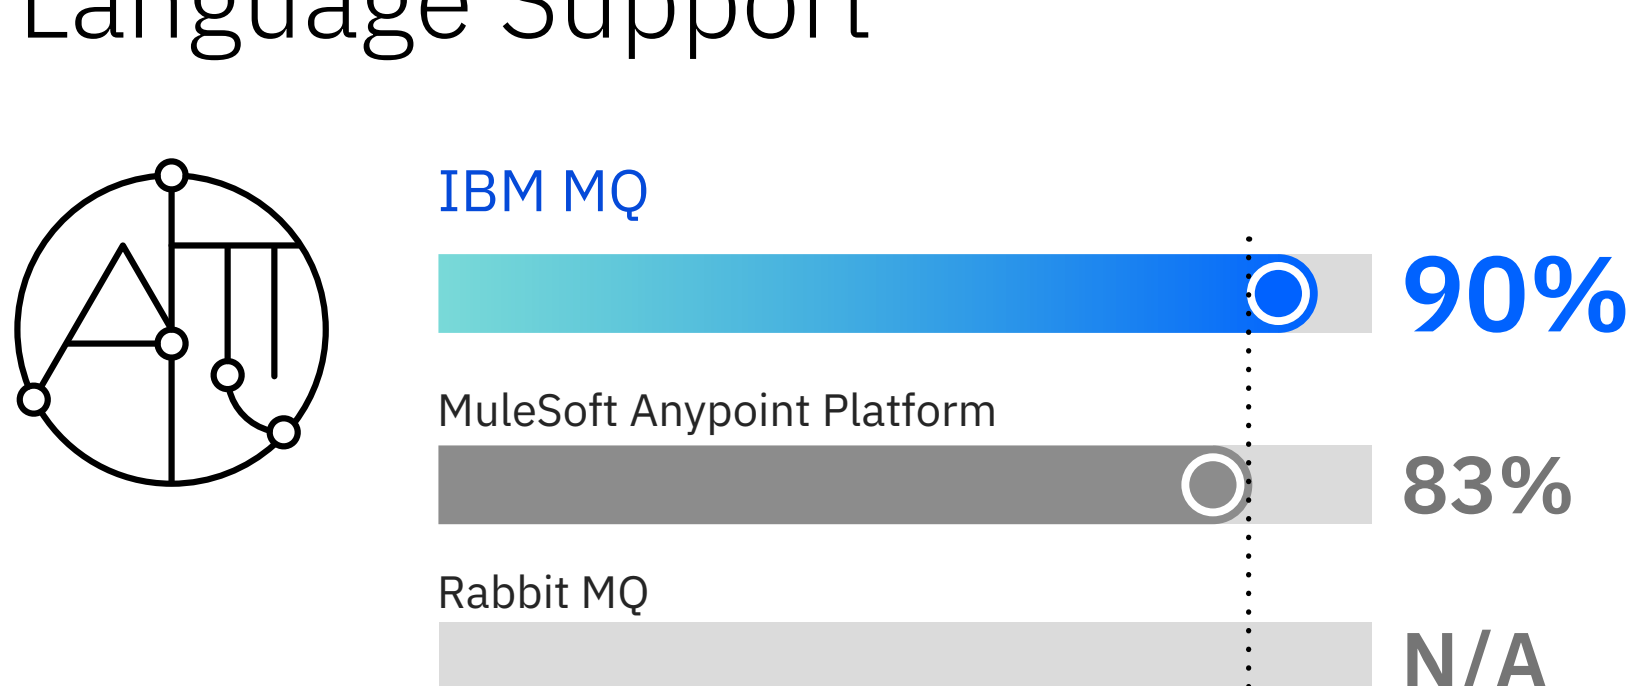

Asynchronous Messaging

I like the integration with Event Streams [Apache Kafka] and the ability to perform asynchronous messages across different technological platforms.

- G2 Reviewer, 4 ½ stars

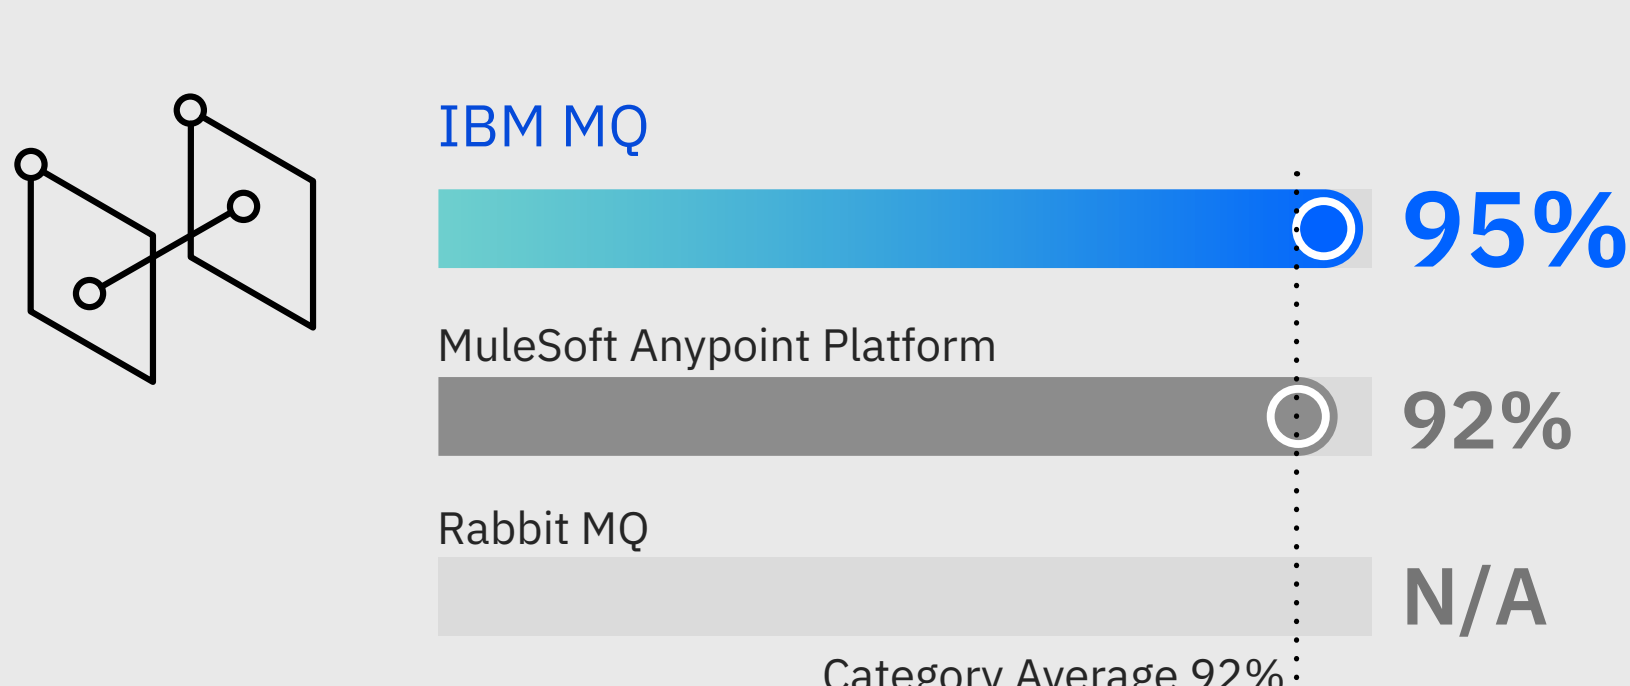

Language Support

Programming interfaces for all the widely used development languages.

- G2 Reviewer, 3 ½ stars

Application Integration

Easy integration with the existing application. Without too many code changes we were able to integrate our application with MQ.

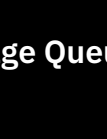

- G2 Reviewer, 4 stars

G2, the world's leading business solution review platform, leverages more than 500,000 user reviews to drive better purchasing decisions. Business professionals, buyers, investors, and analysts use the site to compare and select the best software and services based on peer reviews and synthesized social data. Every month, nearly two million people visit G2's site to gain unique insights. G2 aims to bring authenticity and transparency to the business marketplace.
